

EVER Monaco 2010 **Schedule of 2010 Conferences & Round Tables**

Being held from 25 to 28 March at the Grimaldi Forum Monaco

Monaco, 16 March 2010 – More than an exhibition, the 5th edition of the EVER Monaco trade show (25-28 March 2010) will be an opportunity to attend scientific conferences and round tables during which political, economic and scientific experts will exchange their points of view and experiences on the topics of Energy and Sustainable Mobility.

This year, the scientific conferences, which meet each year with great success (more than 100 papers submitted), will address cutting-edge issues. The round tables, open to the public, will deal with environmental issues related to transport, air quality, health and renewable energies.

The full session marking the official opening of the show will take place on Thursday 25 March at 3:00 PM in the presence of H.S.H. Prince Albert II.
